How to Search Rates
Search your rates in real-time

With the new aacargo.com, we’re excited to bring you the tools to search your rates in real-time, putting the power of 24/7 business at your fingertips.

You can search your rates in two different ways. Do a quick, simple search for specific routes, commodities and rates. Or dig a little deeper with a Tariff Export and customize your search for the way you ship.

Step 1

**Log in to aacargo.com.**

If you don’t have a User ID, you can sign up by clicking the [link here](#). Follow the instructions and set up your login information.

Step 2

Select the Rates Tab
Step 3

To use the Quick Search function:

There are two ways to search for your rates: Quick Search and Tariff Export, which has more functionality and searchable detail.

To use the Quick Search function, click the Quick Search tab on the Search Rates page.

1. Enter Origin and Destination and select an appropriate Commodity Code. NOTE: The date range is prepopulated in the Quick Search function.

2. Select level or levels of service. All Products and Shipment types are preselected. Uncheck options to narrow your search.

3. Click the blue Search button to search rates.
Step 4

1. All current rates for the search criteria will be displayed. The top right corner of the screen will display a flag indicating the rate is a current rate.

Step 5

**Need more detail? We’ve got you covered.**

1. Select Tariff Export at the top of the screen.
2. Select date range. Rates are searchable from six months back to 30 days in the future.
3. This area is highly customizable – select the combinations of options needed.

1. Click Exception button to see company negotiated rates – OR Level to see the rates available to American Airlines Cargo customers.
2. Rates will be emailed. Click “Email eRate” blue button to receive an Excel file which can be searched and uploaded.
Step 6

You’ve got mail!

Our system will automatically default to show the email address associated with your PAL.

If you need to add email addresses click on the “My Profile” tab, then select notifications.

Step 7

The power to go is in your hands (or laptop).

Click the blue “close” button and your files will be sent.
