

Canada Advance Cargo Information (ACI) Fees

The Canada Border Services Agency (CBSA) implemented new regulations regarding Advance Cargo Information (ACI) and requires electronic data for all import shipments to Canada including those shipments tendered as Priority Parcel Service (PPS). Since all Master Air Waybill (MAWB) and House Air Waybill (HAWB) information must be transmitted electronically to CBSA, AA will require complete HAWB information at the time of acceptance. If the Shipper has been authorized to transmit electronic data and opts to transmit the information directly to CBSA, AA will not assess a fee. However, if the Shipper requests AA to transmit the electronic information to CBSA and the HAWB data does not exist at the time of acceptance, a manual data entry fee will be assessed. When a PPS shipment is tendered, the Shipper must create an advance Air Waybill prior to transmitting the HAWB data. Advance Air Waybills may be created from BOS, DEN, DFW, DTW, ELP, HNL, IAD, JFK, LAX, LGA, MIA, OGG, ORD, SEA, SFO, SJU and STL.

The following ACI fees will be assessed at origin for both online and interline shipments (including PPS) and will be applicable to all AA (001) Air Waybills. **Shipments requiring manual data entry that transit the U.S. to Canada will not be assessed a U.S. Customs and Border Protection (CBP) fee.**

- CG (EDI Processing): When the Shipper transmits FHL/2 information to AA and AA transmits it to Canada Customs
- CC (Manual Data Entry): When the Shipper presents documentation and AA manually inputs and transmits to Canada Customs
