

Rating Tariff Terms and Conditions

All information contained herein is deemed confidential by American Airlines and such information shall not be disclosed by the customer to any third party. The rates contained herein are specific for the respective location, zone or city-pair. These rates may not be shared with any person or persons, including, without limitation, any officers, employees or agents of the customer, except on a need-to-know basis. The effective and expiry dates for the rates on this page are the dates referenced above unless otherwise amended on the specific lines above. AA reserves the right to change the rates listed in this tariff (including, but not limited to, their effectiveness) at any time with or without notice. The shipper must place the Product and Pal number on the AWB. Also, for interline shipments, the shipper must specify the interline carrier and the routing at the time of booking and place the same information on the AWB. Failure to provide this information or providing inaccurate or incomplete information (for on-line and/or interline shipments, as applicable) will result in a shipment being charged the applicable published rate. All rates represent net (i.e., non-commissionable) rates for airport-to-airport service on AA (001) AWBs. Unless specified otherwise, the rates are not applicable to dangerous goods, human remains, live animals, perishable commodities and valuable cargo. Carriage is subject to the rules, regulations, conditions of contract, required documentation and applicable accessorial charges located on the American Airlines Cargo website at www.aacargo.com. American Airlines reserves the right to amend or cancel the tariff (including, without limitation, the rules, regulations, conditions of contract, required documentation, rates and applicable accessorial charges) without notice.
